

The Chance of a Lifetime.

An Opportunity to Step Into A Reliable and Paying Cash Business In 10 Days.

For ten days only the undersigned offers for sale the Mayer or BIG BUG STATION, situated on the Black Canyon road 27 miles from Prescott and 78 miles from Phoenix. For over eleven years the average annual business has been \$30,000, and the net yearly profit has been more than \$3,000. Desiring, however, to make a change, I will sell

The Entire Business for Eight Thousand, Five Hundred Dollars, Cash,

or I will trade for Phoenix improved property, or for a ranch near Phoenix. The property which I offer consists of a store, restaurant Postoffice, lodging house, stage barns, corral and outbuildings, the actual cost of the buildings being \$6,000. Furniture and goods will be sold separate. The stock of goods will invoice from \$3,000 to \$4,000 and the furniture of the lodging house, kitchen and dining room will invoice \$1,000. All goes for \$8,500. The station is situated at the foot of the Big Bug mining district, and adjoining the Big Bug Onyx quarries. Several roads lead to the mining camps and to the farming valleys. One or two live men can make a fortune in a short time. Satisfactory reasons for wishing to sell.

ADDRESS **JOE MAYER, MAYER, ARIZONA.**

A Novel Souvenir Spoon.

THIS SPOON, as a souvenir of Arizona, is decidedly unique and appropriate. It is distinctly Arizona, picturing a scene that is an everyday feature on the streets of the cities and towns of the territory. A Pima Indian woman is represented, supporting on her head an olla which rests upon a twisted wisp of bear grass, and awaiting a customer for her ware. Statuesque and graceful as is the figure, it is perfectly true to nature, having been designed from a photograph taken from real life for the purpose.

The olla (usually pronounced o-ver) is a large jar or bowl of pottery for containing and cooling drinking water. It is also used as an Indian invention, and is made of a mixture of clay and sand, the material being moulded exceedingly thin by the deft hands of women, and baked to a brilliant red.

In this climate receptacles for cool water are indispensable in every household and thus the lady and maid find a ready market for them in every town.

It is no uncommon thing to see four or five of these children of nature, picturesque in their gaily colored and stately tread, as they go by, each with an olla on her head, as represented in this charming souvenir.

Call and See them at the Leading Bank Jewellers.

VANILBURG & DAVISON'S.

ITS "WORST"

is Good Enough for Mr. Spainhower.

W. W. Spainhower, a resident of Kansas, was attracted to the Salt River valley last March by the glowing accounts he had heard and read of its climate and opportunities. He and the accounts quite accurate as to the season of the year and regarded the country as a sort of terrestrial paradise. He had also heard that the mid-summer here was unbearably hot and altogether during the months of August and the country would be as its worst and was an undesirable place of residence.

Mr. Spainhower therefore decided to visit the country "at its worst" before settling. He went home but returned a few days ago and found the "worst" much better than the best of Kansas. He yesterday he bought a ranch and will shortly go back after his family. He will be accompanied by other relatives and friends.

Mr. Spainhower is extensively engaged in the manufacture of cheese butter, a business which he will continue here.

PROGRESSING RAPIDLY.

Hudson Reservoir Company's Survey.

Judge Hendershott returned tired and emburdened almost beyond recognition from the works of the Hudson Reservoir and Irrigation company at the Basin and the sites of the divers dams below. He is well pleased with the progress made and says the work will be completed on time.

There are now five corps in the field, each of the diversion dams, one in the general supply camp and two in the Basin. The division engaged on the work on the north side will reach opposite the city in a few days.

Judge Hendershott says the rain in the Basin was terrific, or rather it was a rain at all, but a regular fall of water in sheets. A phenomenon concerning the storm is that it was as storms of that character usual in the clouds hovered over every corner leading into the Basin, pouring their contents into them without the usual process of drainage.

A Narrow Escape.

Marshall Blankenship had a narrow escape from a suspected hydrophobic yesterday. He was called to a house in the vicinity of Ryder's Lum-

ber yard to kill a dog supposed to be mad. The animal was a six month's old bird dog apparently well bred and when the marshal arrived seemed to be all right. The officer called to him and snapped his finger when the animal sprang at him his teeth just grazing the marshal's hand. He then ran into an adjoining yard and as he went snapped at a boy but only caught his trouser's leg. He was fastened in the yard and a well-directed bullet from the marshal's gun dispatched him.

POLICE COURT.

A Morning and an Afternoon Session.

Police court was divided into two sessions. At the morning convocation two persons were found guilty of a tame disturbance of the peace and were given five days in the calaboose.

Later, Pedro Medran was found in a saloon with two other suspicious characters, whom Marshal Blankenship suspected of having stolen jewelry. In the course of a search, he found upon Pedro a dangerous looking knife carefully wrapped in a newspaper. He took him on a charge of carrying concealed weapons. The prisoner explained that he was a resident of Zacatecas, that he had been in the United States less than a month and did not know that the Mexican custom of going "fixed" was regarded unfavorably in this country. The recorder gave him five days, remarking at the same time that a man with a head shaped like the prisoner's was a character to be feared if supported by a knife. Besides, he believed if Pedro could be taught American customs during five days' service in jail, the time would be well spent by him.

Mirrito Prettin, for drunkenness got five days.

COST OF THE SCHOOLS.

The Superintendent's Estimate of Expenses.

At a session of the board of supervisors yesterday the county school superintendent submitted a report of estimated expenses for the current year which amounted to \$43,805 listed as follows:

Eighty-six teachers.....\$43,000

County superintendent's salary.....300

Postage and express.....60

Printing and stationery.....150

Institute expenses.....25

Board of county examiners.....25

Traveling expenses county superintendent.....150

Concerning the last item the superintendent remarks, "The item of \$150 for travelling expenses of the county superintendent is placed in the estimate, from the fact that the school law seems to indicate that the county superintendent is required to visit the several districts at least once in each year, on the small salary of \$30 per year. It certainly could not have been expected that superintendents would perform this important and arduous task and pay their own expenses. The matter is therefore submitted for your consideration."

Roworth has three brands of the finest 5 cent cigars in the city.

Fine Shoes.

H. L. CHANDLER,

The Exclusive Shoe Dealer.

Will Do Europe.

Ben Butler will leave Phoenix about the 10th of next month for the old country. Mr. Butler is an American by birth, but his boyhood days up to the age of 14 were spent in Dublin, Ireland, where his parents resided. He expects to make only a short trip of about six weeks or two months. He will go via Queenstown, Limerick and Cork to Dublin, and before his return will visit London and Paris, returning by the Hamburg line from Hamburg.

Dissolution Notice.

Notice is hereby given that the partnership heretofore existing under the firm name of Zockler & Tweed, was on July 18, 1893, dissolved by mutual consent. C. H. Tweed retires from the business which is continued by B. F. Zockler, who collects all accounts due the late firm and assumes all liabilities.

B. F. ZOCKLER, C. H. TWEED.

Card to the Public.

Having purchased the entire meat market business of Zockler & Tweed, I take this occasion to thank old customers for their patronage and solicit a continuance of the same. Prompt attention to the wants of the people and courteous treatment will be my motto and I guarantee to please not only old customers but as many new ones as may favor me with their patronage. A trial is solicited.

B. F. ZOCKLER.

GAS AND GASOLINE ENGINES.

For Operating, Irrigation Systems, Quartz Mills, etc.,

Golden Gate Gas or Gasoline Engines. . . .

BEST IN THE WORLD.

WE CLAIM

THE MOST SIMPLE, DURABLE, STEADY Running Gas or Gasoline Engines Made. No Boiler, No Coal, No Wood, consequently no ashes or dirt. Noiseless in operation. It will start instantaneously, and will run for hours without any one going near it. For "fire" engine purposes in large buildings or suburban homes it cannot be excelled. Any ordinary person can be taught in a short time to set it up and run it. Absolutely no danger of fire or explosion. No steam gauge to watch. It will cost you as much to watch the steam gauge of other engines as it will to operate the Golden Gate Engine. It is the only Gasoline Engine that will successfully operate a dynamo for supplying electric lights.

Simplest of construction and cheapest in the market to operate. Finest Marine engines made. Traction engines a specialty.

Pumps, Pumping Machinery and IRRIGATING Outfits of the Latest patterns. Manufacturers' Agents for Saw Mills, Planing Mills, Feed Mills and Wood-Working Machinery.

Gas Machines for Light, Heat and Power.

Cheapest Light, Heat and Power Known, not excepting Natural Gas. Persons having trouble with their engines of different patents can have them changed to our patents. For particulars write us.

The only Engine for operating successfully all kinds of Irrigation Systems and all kinds of Quartz Mills, etc. etc.

SMITH & BARNES.
